Industrials:

Privileged relationships have been established with industry, allowing research teams to have early access to new equipment through contractual partnerships. A solid partnership has been established over the years with :

- [Nikon](#) through the [Nikon Imaging Center](#)
- [Carl Zeiss France](#)
- [GATACA systems](#)
- Jeol
- Guerbet
- Sanofi

Partners

Cell & Tissue Imaging Platform

- 3i (Lattice LightSheet)
- CryoCapCell (R&D)

And also: Photometrics (R&D camera), Obsys Scientific (New startup in live imaging and active Illumination), Abbelight (New Startup in SR imaging), Imagine optic wave front engineering; AO), Alvéole (Startup patterning and active illumination), QuantaCell (Startup in Image Analysis/ contract ongoing for Piel and Perez UMR 144 Teams), Acquifer (Hive for LLSM), OGD2 pharma (User), Fluigent(Loan System)...
